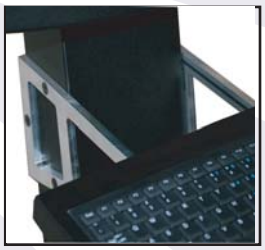
PS
P Series - **S**tandup Kiosk



No Moving Parts
Vandal Resistant
Powder-Coated Steel Construction
Reliable
Transportable

The PS kiosk unites rock solid performance with great looks. The streamlined design of the PS is suited for many environments that require a small footprint kiosk, including lobbies, department stores, and other retail locations, and since it is built on Kioskpros industry leading embedded technologies it can be deployed in the most hostile locations.

All Kioskpros kiosks are designed to withstand self service punishment and abuse by only using high quality components. This allows us to back our entire line of kiosks with a standard 2 year warranty.

KioskPros leads the pack in reliable, cost effective, self service kiosks.

Reliability, low total cost of ownership and increased life expectancy make the PS a great choice for demanding self service applications.
