

# KIOSKPROS

Extend Your Reach with Interactive Technology

## IS I Series - Industrial Standup Kiosk

The IS Industrial kiosk is designed for the most hostile environments. The system was built from the ground up with 2 goals in mind, extreme durability and maximum expandability. The IS can be outfitted with almost any component, and because it is based on industry leading embedded technologies, it can be deployed virtually anywhere. It's unique design is impervious to water, dirt and grease allowing the IS to take abuse that would leave other kiosks lifeless. If you are looking for a true industrial level kiosk solution, look no further.

All Kioskpros kiosks are designed to withstand self service punishment and abuse by only using high quality components. This allows us to back our entire line of kiosks with a standard 2 year warranty.

KioskPros leads the pack in reliable, cost effective, self service kiosks.
